EDUCATION

Netaji Subhas University Of Technology
B.tech in Instrumentation and Control Engineering

New Delhi / India
2022-2026

WORK EXPERIENCES

AppKnit

Flutter Developer

Remote

June 25 – Present

- Built and deployed 4+ client apps on Play Store and App Store.
- Used GetX for efficient state management and navigation.
- Delivered custom UI/UX solutions as per client requirements.
- Recruited as an intern and was converted to a full time role as a result of strong performance.

ALERTIX

Flutter Developer Intern

Remote

April 25 – September 25

- Developed **Sanrakshak**, a women's safety app.
- Integrated **Google Maps** API, improved UI, added Flutter animations, and used **Bloc** state management.
- Worked on core features like location sharing at press of SOS button and show nearby police and hospitals on map..

TRUFLECT

Flutter Developer Intern

Remote

Feb 25 – November 25

- Developed a consumer-based **nutrition app** where users scan **QR codes** on food/grocery items to check ingredients, nutrients, and health insights.
- Integrated **authentication**, connected to **GraphQL** backend, and added **search** functionality in app.

PROJECTS

[QuickBite – Smart Canteen Ordering System](#)

- Built an **end-to-end** food ordering platform tailored for college canteens to eliminate queues and streamline service.
- Designed dynamic **user** and **admin** interfaces—users receive order IDs, receipts, and status updates; admins track, prepare, and mark deliveries
- Integrated Razorpay Payment Gateway to enable secure UPI-based transactions directly within the app, generating unique order IDs and digital receipts.
- Implemented **real-time notifications** for order confirmations and "food ready" alerts using **Firebase Firestore** to enhance user experience.
- App is build using **Bloc** state management , helped in keeping UI and logic layer seperate and keeping the code clean.

[Pinterest-Style Images App](#)

- Developed a Pinterest-inspired Flutter application featuring a dynamic **staggered** (masonry) grid layout for displaying image content.
- Integrated **REST APIs** to fetch images and metadata, enabling real-time content rendering.
- Implemented **search functionality** with API integration to dynamically retrieve and display relevant image results.
- Integrated **authentication** using **Clerk**, enabling secure user sign-up, login, and session management.

AWARDS AND ACHIEVEMENTS

- National Rank 3 and won Cash Prize of 25000 in Technozian Robotics Competition.
- Finished among Top 5 teams in 1Pixel Designathon at IIIT Delhi
- Have social worked for more than 120 hours in NSS and have also attended NSS Camp 2024.

ADDITIONAL

TECHNICAL SKILLS: Flutter , Firebase , GetX, Bloc State Management , GitHub , SQL , Figma , MVVM, Java

OTHER EDUCATION: OOPS , DSA

INTERESTS: Badminton , Cycling , Music.
